RA Factor, Body Fluid

Order Name: **RA Factor, BF** Test Number: 6905133 Revision Date: 11/14/2022

TEST NAME			METHODOLOGY	LOINC CODE	
RA Factor, Body Fluid		Quantitative Immunoturbidimetric			
SPECIMEN REQUIREM	IENTS				
		0 · T			
Specimen	Specimen Volume (min)	Specimen Type	Specimen Container	Transport Environment	
Preferred	1 mL (0.3 mL)	Body Fluid	Sterile Screwtop Container	Refrigerated	
Instructions	Specimen Type: Transport tu Specimen Storage: Store fro Specimen Collection: Collect Special Instructions: Testing	tes: 0.3 mL (Note: This volume Does not allow for repeat testing.) ecimen Type: Transport tube or other container ecimen Storage: Store frozen or refrigerated. ecimen Collection: Collect synovial fluid aseptically into tube or other container. ecial Instructions: Testing is performed at Esoterix Inc. ESECF# ecimen Stability: Ambient: 7 days, Refrigerated : 14 days, Frozen: 60 days			
GENERAL INFORMATI	ON				
Expected TAT	7 - 14 days	7 - 14 days
